

# PAVO REAL *Red wine*

## A MEXICAN HERITAGE

Pavo Real wines are cultivated in Valle de Guadalupe, the most prestigious wine region in Mexico, known for its plentiful and exceptional viticulture. Mexican wines have a rich history and have been cultivated since the Spanish first arrived in the 16th century, making them the oldest wineries in the Americas. Until now, these wines have been enjoyed within Mexico's borders but Pavo Real is bringing this unique Mexican experience to international tables.

## A PRESTIGIOUS BLENDER

The wines are blended by prestigious and internationally recognized sommelier, Ian Cauble. Ian Cauble has been a Master Sommelier since 2012 and gained worldwide recognition when featured in the critically acclaimed documentary *Somm*, which documented Ian's journey to pass the infamously difficult Master Sommelier exam.
